Azoty Group promoted in the TOP 500 CEE 2022 ranking of the largest companies in Central and Eastern Europe

In the 17th edition of the ranking, Grupa Azoty was promoted by as many as 16 positions compared to the previous year.

The ranking, prepared by the Coface group under the auspices of the Rzeczpospolita daily, presents the 500 companies and capital groups from the region that recorded the highest turnover in 2021 in absolute terms. In the case of capital groups, the ranking takes into account the consolidated data of the companies in the group, thus showing the real significance and strength of the region's largest concerns.
