Grupa Azoty awarded in Golden 100 of Polish Agriculture ranking

The Grupa Azoty Group has received the winner's statuette in the Fertilizer Manufacturer category of a ranking compiled by the *Wprost* weekly. It has also taken the second place overall in the Golden 100 of Polish Agriculture ranking. On behalf of the Grupa Azoty Group the award was collected by Tomasz Hryniewicz, Vice President of the Management Board of Grupa Azoty S.A. and President of the Management Board of Grupa Azoty Puławy.

The ranking is based on the criterion of revenue earned in the Agro Fertilizers segment for 2020.

"We regard the award as a great honour, especially that AGRO is a key segment of the Grupa Azoty Group's business. Let me stress at this point that – according to our recently released strategy until 2030 – the Group's priority in AGRO will be to further reinforce its leading position in the manufacture and sale of fertilizers both domestically and across the region. Today's award will give us additional motivation to market more innovative products designed to support farmers in their hard daily work, which is so vitally important," **says Tomasz Hryniewicz, Vice President of the Management Board of Grupa Azoty S.A. and President of the Management Board of Grupa Azoty Puławy.**

An interesting fact is that the aggregate revenues posted for 2020 by companies included in Wprost's ranking amounted to PLN 137bn, which represents an increase of PLN 10bn on 2019.
