Grupa Azoty Group recognised at the PLASTPOL fair

The Grupa Azoty Group was very successful at the 20th International Fair of Plastics and Rubber Processing PLASTPOL, which was held on May 17th - 20th.

The organisers rewarded the Group not only for its products, but also for its exhibition stand, granting as many as four medals to Poland's largest chemicals manufacturer.

During the four days of the fair, the Group's representatives demonstrated the full range of engineering plastics and their modified forms manufactured by the plant in Tarnów, and a wide range of OXO products manufactured in Kędzierzyn-Koźle. Their participation in the fair was highly commended by the organisers. All in all, the Grupa Azoty Group returned from Kielce with four medals, for its innovative Oxoviflex[®] non-phthalic plasticizer production installation, for Tarnamid[®] – a new line of plastics designed for products made to a high surface aesthetics standard, for Tarnamid[®] HIP – a type of plastic designed for frost-resistant applications, and also for an interesting and original way of arranging its exhibition stand.
