Grupa Azoty S.A. announces preliminary consolidated production volumes for February 2023 and shutdown of ammonia and urea production plant at Grupa Azoty Police

Grupa Azoty S.A. continues to release regular updates on estimated consolidated production volumes. The company has also announced a temporary shutdown of the ammonia and urea production plants at Grupa Azoty Police.

Preliminary consolidated production volume data for February 2023 is available [HERE](#). The data is an estimate, and the final quarterly production results will be published in the consolidated report for Q1 2023.

The company has also announced that despite efforts to increase sales, the Management Board of Grupa Azoty Police decided to continue the temporary shutdown of the ammonia and urea units until March 31st 2023. The decision reflects the deteriorating negative supply-demand situation in the market.
