'This is yet another donation of sports equipment from Grupa Azoty to local schools. The Company is an active participant of initiatives intended to promote physical activity and healthy lifestyles among children and youth. We are well aware that physical fitness and future success in sports come from hard work and healthy habits fostered from an early age. The donation we have made today is an important and tangible sign of our commitment to corporate social responsibility,' **said Tomasz Hinc, President of the Management Board of Grupa Azoty S.A.**

'It is essential that Grupa Azoty supports children and young people in participating in sports activities. The support is not limited to professional sports but extends to amateur athletes in schools and school sports clubs. We should remember small towns are often breeding grounds for top athletes. It is often small clubs in rural areas where the greatest talent and would-be sports stars are born. Our donation of sports equipment will help encourage children to play sports from an early age. It will facilitate physical activity of children and youth while also helping to make the most of the existing local sports infrastructure,' **said Anna Pieczarka, Member of the Lower Chamber of the Polish Parliament.**
